Vaseline Keeping Skin Amazing

Increase your skin's moisture instantly - order your free sample of Vaseline Intensive Rescue Body Lotion.

Healthy skin naturally repairs itself, but many factors - from the environment to heredity - can negatively affect this ability and lead to severe dryness.

Vaseline Intensive Rescue Body Lotion - to the rescue!

Very dry skin struggles to hold onto the moisture it so desperately needs. The skin's resistance is lowered and it begins to feel tight and appear dull and flaky. Vaseline Intensive Rescue Body Lotion replenishes moisture reserves instantly, fills in the tiny gaps in the skin, and locks in moisture all day, promoting the proper environment dry skin needs to repair itself.

Why not try Vaseline Intensive Rescue for yourself and see your skin returning to health?
